

Green Campus Policy

Ref.- AIHE/2019-20/ECC Policy/003

Date-06/09/2019

The connection between AIHE and nature is deep-rooted and enduring, and it is well-known among the college's students and staff. Considering the importance of safeguarding the environment for a sustainable, pollution-free, and healthy future on Earth, the college has established its Green Protocol. AIHE is committed to sustainable development and aims to achieve carbon neutrality by reducing its carbon footprint and fulfilling its societal responsibilities.

1. Restricted Vehicle Access

AIHE limits automobile entry to minimize air pollution on campus. Vehicle access is prohibited within the premises to ensure a clean air environment, prioritizing student safety and well-being.

2. Pedestrian-Friendly Pathways

All pathways and corridors at AIHE are designed for pedestrian convenience, ensuring easy access and preventing any inconvenience for students

3. Minimal Usage of Plastics

AIHE enforces a strict no-plastic policy on campus and encourages students to extend this practice beyond the campus.

4. Landscaping with Trees and Plants

The Eco Cell Committee at AIHE conducts plantation drives to foster a green campus. The initiative aims to engage faculty, staff, and students in creating and maintaining the green environment. Additionally, the college practices gifting saplings instead of bouquets at events, enhancing campus aesthetics.

5. Sapling Distribution Program

To support the green campus goal, AIHE organized a sapling distribution program within the campus.

6. Hygiene Maintenance

Dustbins are available in all classrooms and administrative areas. Plans are underway to introduce separate biodegradable and non-biodegradable bins for waste segregation. Washrooms are regularly cleaned and equipped with soap, tissue dispensers, and liquid sanitizers. The college also promotes the use of eco-friendly cleaning agents.
